# SHN Regional Workshop, October 9-12, 2014

At Washington State University, Pullman, WA

On Friday, the workshop will meet as single group to discuss topics that are common to all digitization workflows. On Saturday, workshop participants will be divided into two groups to provide better hands on access to digitization equipment. After Saturday's lunch, the groups will swap sessions. The group taking the multimedia digitization session will switch to the photo digitization session, and vice-versa.
