Mukurtu CMS Item Sharing Activity Worksheet
Digital Stewardship Curriculum

This worksheet is a tool for discussion on sharing items digitally on a Mukurtu CMS site. This idea is that you would introduce an item from your collections and discuss the Communities, Cultural Protocols, and Categories that might apply to it. Try to answer the included questions in your conversation, but feel free to follow the discussion naturally, and add any other questions that come to mind. This activity is meant to aid a discussion with a partner or in small groups.

Describe this item

- Introduce the item and why it is meaningful.
- Does it have a title, a creator, any contextual information?
- Why do you want to consider sharing it online?

Communities

- Where does this item come from?
- Are there other copies or versions of this item? Where?

Cultural Protocols

- Who needs to be involved in determining access?
- What would appropriate access look like?

Categories

- What are some words that describe this item?
- What other items might you group this item with in a category?
- How do you know what descriptive terms are useful for finding this item?
